MY PROFILE

A curious and forward-thinking Computer Engineering student from the Polytechnic University of the Philippines who is eager to learn new computer related skills and concepts that can only be gained through real-world experience. Committed to continuous growth and always open to constructive criticism and improvement. Possesses the ability to adapt effectively to different working environments, especially in collaborative settings. Passionate about both hardware and software development with a strong drive to apply academic knowledge to real-world projects and challenges, as well as contributing meaningfully to team goals.

ACADEMIC BACKGROUND

POLYTECHNIC UNIVERSITY OF THE PHILIPPINES 2023 - Present

BS IN COMPUTER ENGINEERING

Currently a student with experiences in basic fundamentals of computer software and hardware, as well as programming languages (Python and HTML). A member of AWSCC PUP in the Department of Web Development. A president's lister during the second year.

POLYTECHNIC UNIVERSITY OF THE PHILIPPINES 2021 - 2023

SCIENCE, TECHNOLOGY, ENGINEERING, MATHEMATICS (STEM)

Took up STEM strand during Senior High School and a High Honors from Grade 11 - Second Sem to Grade 12 - Second Sem.

CORE SKILLS

- Programming Language (Python, HTML)
- Visual Studio Code
- Tkinter
- AutoCAD
- Graphic Design
- MS Office (Word, Excel, Powerpoint, etc.)
- Leadership
- Collaboration

SEMINARS

2025 - AWS Machine Learning and AI

Conducted on June 5, 2025, providing foundational knowledge about machine learning concepts and AI applications, by one of the alumnus of the Polytechnic University of the Philippines, as well as platforms that gives access for PUP students.
